

# WESTERN ONE HEALTH CLUB

## What is One Health?

- The One Health initiative aims to create better health outcomes for humans, animals and the environment, by utilizing a collaborative and transdisciplinary approach.

## What does WOHC aim to do?

- Promote the One Health concept to students, irrespective of academic discipline.
- Enable students to get the support, connections and education they need to contribute positively to research and policy development regarding global issues in their future careers.
- Foster an environment that facilitates collaboration between students across disciplines.
